Objective

Aspiring MERN Stack Developer seeking an entry-level opportunity to apply strong programming fundamentals and a passion for full-stack development within a forward-thinking and collaborative team. Eager to contribute to the design and development of dynamic web applications while continuously learning and solving real-world problems using the MERN stack technology

Professional Course and Technical Skills

Mern Stack Development | Pentagon Space | Ongoing (2025), Currently pursuing a 500-hour intensive offline course covering frontend (HTML, CSS, JavaScript, ReactJS), backend (Nodejs, Expressjs), and databases (MongoDB)

Projects

Project: 01. built a real-time chat app using **MERN stack (MongoDB, Express, React, Node.js)**. Users can **sign up, log in and chat instantly with friends**. Designed a **responsive and intuitive interface** using HTML, CSS, and React for a smooth user experience

Project: 02. I built a hospital management website using the **MERN stack (MongoDB, Express, React, Node.js)**. where patients can book appointments and chat with doctors. It includes **secure login with JWT**, an admin dashboard for managing users, and a **responsive React frontend**.

Education

RR Institution Of Management Studies Bachelor of Computer Applications

Bengaluru, Karnataka, India. CGPA: 8.38/10

General Information

Language Skills Kannada, English, Hindi, Malyalam, Urdu

Citizenship Indian.
